

Impact-resistant ceiling and wall luminaires · STAINLESS STEEL

Impact-resistant ceiling and wall luminaires for incandescent lamps and fluorescent lamps. Luminaires with fittings made of die cast aluminium and stainless steel. Crystal glass of great material thickness and distinct light-diffusing textures. Available with or without safety guard.

Stainless steel is an impressive material which satisfies the requirements of thickness, surface finish and construction. Thanks to their design and aesthetic quality as well as operating reliability, these luminaires are produced to last for many years.

They are versatile in use both as ceiling and wall luminaires with different dimensions and light outputs. Their high protection class further extends their range of application.

Ceiling and wall luminaires
for incandescent lamps and fluorescent lamps

Protection class IP 65

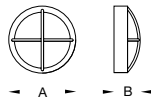

Die cast aluminium and stainless steel

Crystal glass with optical texture

Incandescent lamps				Lumen	A	B
3410	Ceiling and wall luminaire	1 D 45	60 W	660	210	90
3411	Ceiling and wall luminaire	1 A 60	100 W	1340	270	105
3412	Ceiling and wall luminaire	2 A 60	75 W	1870	380	115

Fluorescent lamps				Lumen	A	B
3420	Ceiling and wall luminaire	1 TC-T	18 W	1200	210	90
3421	Ceiling and wall luminaire	1 TC-T	26 W	1800	270	105
3422	Ceiling and wall luminaire	2 TC-T	26 W	3600	380	115

Incandescent lamps				Lumen	A	B
3510	Ceiling and wall luminaire	1 D 45	60 W	660	210	100
3511	Ceiling and wall luminaire	1 A 60	100 W	1340	270	115
3512	Ceiling and wall luminaire	2 A 60	75 W	1870	380	130

Fluorescent lamps				Lumen	A	B
3520	Ceiling and wall luminaire	1 TC-T	18 W	1200	210	100
3521	Ceiling and wall luminaire	1 TC-T	26 W	1800	270	115
3522	Ceiling and wall luminaire	2 TC-T	26 W	3600	380	130
